

Nyo Naing Loon

I am a dedicated Node.js backend developer with a strong focus on web development, specializing in the MERN stack (MongoDB, Express, React, Node.js). After completing my GED, I have been actively contributing as a volunteer assistant teacher at Crossroad Learning Center, supporting students and helping with various learning activities. I am passionate about both teaching and programming, and I am continually enhancing my skills in backend development to create efficient and scalable web applications.

Date of Birth: 13th Feb 2004

PROFESSIONAL EXPERIENCE

Shop Owner, SHU MA WA COPY & PRINT STORE

April 2020 – June 2021

I oversaw operations and provided quality services to our customers. Our shop, strategically located near my high school, became a hub for students and local residents alike. With a dedicated team of employees, I led the day-to-day management of the store, ensuring smooth operations and excellent customer satisfaction. Despite the challenges faced by our business, I constantly sought innovative ideas to expand our services and reach new clientele.

Tasks

- Writing Contents
- Printing
- Video Editing
- Photoshop
- Video Graphing
- Photo Shooting
- Making Invitation letter
- Graphic Design
- Photoshop
- Video Graphing
- Making business card

Phone Service, Freelancer

August 2022 – December 2022

I provided expert phone service to customers seeking efficient solutions for their mobile devices. I approached every task with precision and professionalism, whether it involved replacing screens, fixing software glitches, or addressing hardware malfunctions.

Developer , Freelancer

-present

I've built a web app for my church and a blog website for a teacher, proving your technical skills and problem-solving abilities
